

Dryopteris Marginalis

Eastern Wood Fern

Eastern Wood Fern is native to woodland areas of north-eastern North America but adapts well to moist, shady gardens. It is not invasive, quite the opposite, easy & reliable! Fronds are dark green, leathery, and form a single-crowned clump.

Best in partial to full shade, with regular water.

Wildlife resistant once established.

Common Name

Eastern Wood Fern

Zone

Zone 2

Mature Size

1.5'H x 2'W

Plant Type

Fern
