

Ilex x Meserveae

Blue Princess

“Blue Princess’ Holly is a broad, upright, evergreen shrub, eventually maturing to 15’ tall and 10’ wide. It is easily kept smaller. Dark purplish stems hold glossy, blue-green leaves with spiny-toothed margins. Tiny, inconspicuous, creamy-white flowers appear in Spring. Fertilized female flowers give way to abundant, dark red fruit which persists throughout the Winter. Tolerant of most conditions, but does best in full to partial sun, with well drained, humitic soil, and regular water.

Pollinator friendly.

‘Blue Princess’ is on the right, ‘Blue Prince’ on the left.

Common Name

Blue Princess Holly

Variety

Blue Princess

Zone

Zone 4

Mature Size

15'H x 10'W

Bloom Time

April-May
