

Ilex Verticillata

Red Sprite

'Red Sprite' is a compact that is valued for its abundant crop of bright red berries in Fall & Winter. Berries are larger than evergreen hollies and persist throughout Winter unless consumed by local birds. This selection is a female clone and requires a male pollinator for berry set. Does well in full to partial sun, and water-laden soils. Pollinator friendly.

Common Name

'Red Sprite' Winterberry

Variety

Red Sprite

Zone

Zone 3

Mature Size

3'H x 3'W

Bloom Time

June-July

Plant Type

Deciduous Shrub

Flower Color

Creamy White
