

Magnolia acuminata 'Fertile Myrtle' x Denudata

Butterflies

'Butterflies' is considered to be among the best of all yellow Magnolias. Flowers are an exceptional, non-fading, rich yellow, 4 to 5 in. tall, held upright, like butterflies perched on bare branches. A spectacular specimen and focal point for early Spring.

Flowering is best with full sun & well drained, humitic soil.

Drought resistant once established.

Pollinator friendly.

Common Name

'Butterflies' Magnolia

Variety

Butterflies

Zone

Zone 5

Mature Size

20'H x 15'W

Bloom Time

May

Plant Type

Deciduous Tree
