

Rubus

Boysen (Thornless)

“Boysen” is a thornless trailing blackberry with large, nearly seedless fruit. They have a soft texture and thin skins, but this is overlooked for their large size, and sweet-tart flavor. Best for fresh market.

This is the purported berry (in its thorny form) that made Knott’s Berry Farm famous.

Full sun, regular water, and good drainage for best fruit yield.

Pollinator & wildlife friendly,

Common Name

'Boysen' Thornless Blackery

Variety

Boysen (Thornless)

Zone

Zone 5

Bloom Time

May
