

Rubus

Chemainus

Pacific Agri-Food Research Center of Agr

'Chemainus' produces glossy skinned, tasty fruit that is ready to harvest from mid-June to mid-July. Its upright habit make it very easy to train. Chemainus is a multipurpose cultivar suited for processing and fresh markets. It produces high yields and is machine harvestable.

Plant in the full sun with regular water & good drainage for best results.

Pollinator & wildlife friendly.
