

Wisteria macrostachys

Blue Moon

Kentucky 'Blue Moon' Wisteria is an amazing vine! It may bloom up to three times in a growing season once established, producing beautiful, foot-long racemes of fragrant, pea-like lavender-blue flowers.

Over time, the stems of this vine become twisted and trunk-like.

Full sun is needed for best flowering.

Best grown in well drained, slightly acidic, humitic, soil, with regular water.

Relatively deer resistant after establishment.

Very pollinator friendly.

Common Name

Kentucky 'Blue Moon' Wisteria

Variety

Blue Moon

Zone

Zone 3

Mature Size

25'H x 8'W

Bloom Time

May-August

Plant Type

Deciduous Vine
