

Viburnum Plicatum

Mariesii

AGM winner

'Mariesii' has large, sterile, lacecap flowers and a distinctively horizontal branching pattern that combine for a shrub of rare beauty!

When the pure white blooms line the long tiered stems in mid-Spring, everything else seems to fade away.

Fall foliage is a majestic burgundy.

Best flowering in full to partial sun and consistent moisture. Not choosy about soils.

Common Name

'Mariesii' Doublefile Viburnum

Variety

Mariesii

Zone

Zone 5

Mature Size

12'H x 15'W

Bloom Time

April-May
