

Viburnum Tinus

# Spring Bouquet

'Spring Bouquet' is an easily grown, versatile evergreen shrub. Striking, dark green foliage is contrasted by fragrant, pinkish-white blooms, in late Winter and Spring. Showy metallic blue berries appear in Summer to the delight of wildlife.

Best flower show in the full sun, but will tolerate light shade. Like well drained soil but is tolerant of most types.

Relatively drought resistant once established.

Wildlife & pollinator friendly.

Common Name

**'Spring Bouquet' Laurustinus**
