

Athyrium

Ghost

 Nancy Swell

'Ghost' is a vigorous and easy-to-grow deer-resistant hybrid fern. It is a cross between *Athyrium niponicum* 'Pictum' and *Athyrium filix-femina*. The result is an upright, vase shaped fern, with the silvery grey foliage of the *Athyrium niponicum*. The formal effect of this fern is very spectacular!

Best in light shade and definitely out of the hot sun. Likes well drained, humitic soil that is consistently moist but not wet.

Common Name

'Ghost' Fern

Variety

Ghost
