

Acer Palmatum

# Bloodgood

'Bloodgood' is an all-season attraction! Stunning burgundy red foliage turns brilliant scarlet in the Fall. Blackish red bark provides striking interest in winter. This slender, airy tree is well-suited as a small lawn or patio tree or for entryways. Has good sun tolerance, but is better in light shade in the warmer climates. Prefers well-drained humitic soil. Flowers are fairly insignificant unless viewed up close. Pollinator friendly.
