Anemone x lesseri

Spring Beauty White PP32199

AB Cultivars | Royalty Fee

A new hybrid selection using Anemone sylvestris, with upright flower stalks and pure white blooms. Most anemone bloom in the fall, but these beauties bloom in the late spring to early summer, providing early nectar for pollinators in any garden setting. The flowers blow in the wind like little pinwheels and signal warmer, sunnier days. A sterile cultivar that will not spread.

Grow in full sun to part shade in average, well drained garden soil. Pest and disease free and hardy to USDA zones 3-7. Best suited for borders, containers, foundations, and small urban gardens.

Common Name
Windflower

Variety
Spring Beauty White PP32199

Zone
Zone 3

Mature Size
18"H x 12"W

Bloom Time
Late Spring to Early Summer

Plant Type
Perennials
