

Spiraea Japonica

Fire Light

The new growth is a rich red-orange, deeper than that of its parent, 'Goldflame'. In summer, the foliage loses its vibrancy but does not produce all-green reversions. Fall color is often a fiery red. The pink flowers produced in early summer play second to the foliage display. 3' x 4'

Common Name

Japanese Spirea

Variety

Fire Light

Zone

Zone 4

Mature Size

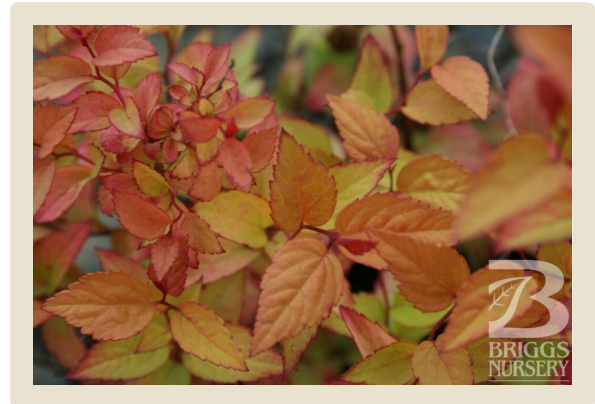

3' x 4'

Bloom Time

Early Summer

Plant Type

Deciduous Shrub
