Vaccinium parvifolium

Red Huckleberry

A deciduous native of the Pacific coast (from southeastern Alaska to central California) with small, greenish-white or pinkish, bell-shaped flowers in spring and tasty, bright red, 1/4" diameter berries in summer. Requires humus-rich, acid soil and tolerates shade, making it an excellent woodland companion. Upright, somewhat spreading habit. 8′ x 6′

Common Name
Red Huckleberry

Zone
Zone 5

Mature Size
4-10' x 3-8'

Bloom Time
Spring

Plant Type
Fruits

Flower Color
Greenish White Pink
