

Arbutus Unedo

Strawberry Tree

Very graceful & distinctive, Arbutus unedo makes an excellent small garden shrub or tree. Native to the Mediterranean, this plant is drought tolerant once established. White, bell shaped flowers in the Spring produce showy, strawberry-like fruit in the Fall. With age, exfoliating bark becomes very attractive. Does best in the full sun with good drainage.

Common Name

Strawberry Tree

Zone

Zone 7

Mature Size

10'H x 6'W

Bloom Time

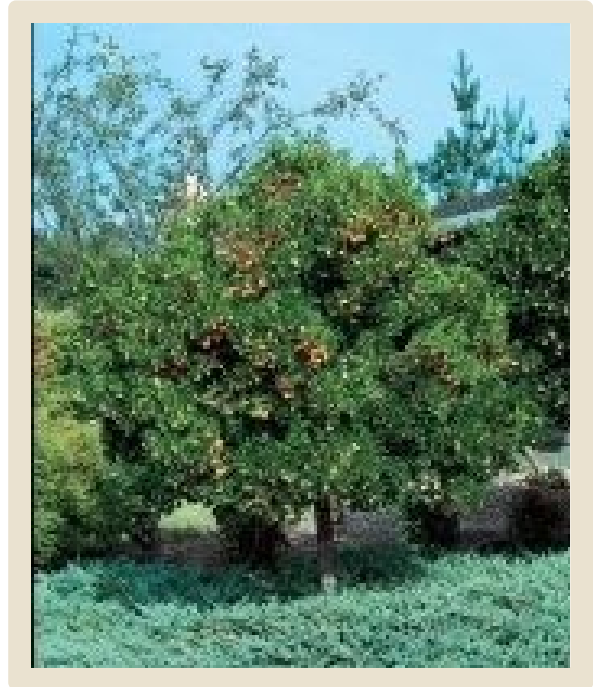

Spring

Plant Type

Evergreen Tree

Flower Color

White
