

Cotoneaster Dammeri

Bearberry Cotoneaster

Bearberry Cotoneaster forms a dense semi-evergreen mat that works as a groundcover, foundation planting, bed-edging, or cascading over hardscaping. It is a compact grower that produces petite, showy white flowers in the Spring, followed by brilliant red berries in the Summer. It is easy to grow.

Very drought & wildlife tolerant once established.

Full sun for best performance.

Very pollinator friendly.

Common Name

Bearberry Cotoneaster

Zone

Zone 5

Mature Size

1'H x 6'W

Bloom Time

April-June

Plant Type

Groundcovers

Flower Color

White
