KALMIA LATIFOLIA

Minuet

Award winning, Kalmia ‘Minuet’ is noted for its diminutive habit and solid, bright cinnamon banded flowers. Opening from light pink buds, then deepening to solid banded cinnamon, its flowers are comparatively large for its habit. Its recurved leaves are darker green than other little leaf kalmia cultivars. As a plant that branches well and buds young, ‘Minuet’ has proven excellence in both production and landscapes across the country, lending itself equally for use in both mixed borders and mass plantings.
