

SURPRISING *Conifers!*

These evergreen beauties come in unexpected shapes, colors and textures for year-round impact in your landscape.

BAKERI COLORADO BLUE SPRUCE

Picea pungens Bakeri / Very slow-growing conifer forms an attractive, symmetrical cone. Silvery blue foliage with long, feathery needles on stiff, brush-like branches.

WEeping NORWAY SPRUCE

Picea abies 'Pendula' / Weeping, spreading branches form a dramatic waterfall effect in the landscape. Rich green needles and exceptionally showy cones.

EMERALD GREEN CEDAR

Thuja occidentalis 'Smaragd' / Semi-dwarf cedar with a narrow, symmetrical, pyramidal habit, and glossy, bright green foliage in flat, lacy sprays.

'GOLDSTRIKE'[™] UPRIGHT GREEN CEDAR

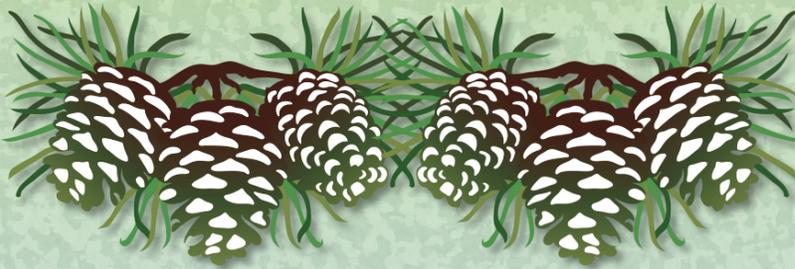

Thuja occidentalis GOLDSTRIKE[™] 'Thusid1' PP#22,003 / Elegant semi-dwarf with a narrow, columnar habit. Finely textured foliage features bright golden-yellow new growth.

WEeping WHITE SPRUCE

Picea glauca 'Pendula' / A very upright habit, straight trunk, and narrow, columnar demeanor, give this spruce a stately, formal appearance. Long, pendulous branches bear blue-green foliage.

FROM PLANTER, to GROUND COVER, to WINDBREAK, with SUCH A WIDE VARIETY of AVAILABLE SIZES, SHAPES and HABITS, THERE IS A CONIFER to SUITE EVERY LANDSCAPING NEED.

**ISELI FASTIGIATE
COMPACT BLUE SPRUCE**
Picea pungens Iseli Fastigiata / Upward facing branches on a narrow, columnar form. Attractive blue-green foliage maintains its color well.

DWARF ALBERTA SPRUCE
Picea glauca Albertiana Conica / Densely packed branches with soft-to-the-touch green needles form a classic, conical shape.

BIRD'S NEST SPRUCE

BIRD'S NEST SPRUCE
Picea abies 'Nidiformis' / Distinctive flattened globe shape with a slight center depression characterize this slow growing spruce. Fine, dark green needles are daintier and shorter than typical spruce foliage.

SWISS MOUNTAIN PINE

SWISS MOUNTAIN PINE
Pinus mugo 'Pumilio' / Dwarf pine with a broad, dense, spreading form, and dark green needles on stiff upright branches.

DWARF GLOBE BLUE SPRUCE
Picea pungens 'Globosa' / Small and globe shaped, with a slightly flattened top, and intensely blue needles that hold their color year round.

DWARF GLOBE BLUE SPRUCE

BRAND NEW!
BRANDON GOLD PYRAMID CEDAR
Thuja occidentalis 'Thusidz' PPAF / A brand new cultivar of *Thuja occidentalis*, characterized by coarse textured foliage with bright yellow-green new growth, and a narrowly upright, semi-compact habit.

BRANDON GOLD PYRAMID CEDAR
