

NEW! Berry Cascade™

GAULTHERIA PROCUMBENS 'GAULSIDH11'
BERRY CASCADE™ PPAF, CPBRA

***Cascades of showy, vivid red berries
set this introduction from Briggs
Nursery apart from other Gaultherias***

Unlike most Gaultheria cultivars, the berries of 'Berry Cascade' grow the entire length of the stem, forming a charming, cascade effect. Delicate, bell-like white flowers in Summer, are followed by loads of brilliant berries from Fall through Spring. Beautiful orange-red new growth in Spring holds its color for months! Plants are propagated by tissue culture, to ensure crop uniformity not possible from seed grown plants.

- *Bright red berries grow the entire length of stem, creating a charming cascade effect*
- *Plant in partial shade; acidic, well-drained soil that is rich in organic matter*
- *Evergreen foliage; orange-red new growth*
- *Low, spreading habit; 8-10"H x 3'W*
- *Best used as groundcover, cascading over hardscape*
- *Pest and disease resistant*
- *USDA zones 3 to 8*
