

Mini BLUES

INTRODUCING VACCINIUM 'MINI BLUES'^{PPAF}

High yields and excellent gourmet flavor, make this hardy, small fruited blueberry, ideally suited for commercial processing and culinary applications alike.

Developed by Chad Finn of USDA-ARS, Corvallis, Oregon, in collaboration with Oregon State University, Vaccinium 'Mini Blues' PPAF will be useful for processing and the fresh fruit market. An abundant crop of very small (0.8 gram), firm, light blue berries, ripen mid-season. They have a small scar, gourmet flavor, and are excellent for frozen IQF fruit. **Ideal for inclusion in muffins, pancakes, or any foods where you want the berry to remain intact, and have phenomenal flavor!**

- ◆ Very small (0.8 gram), very light blue, firm berries with excellent, gourmet flavor
- ◆ High yield potential; berries ripen mid-season (similar to Bluecrop)
- ◆ Machine harvestable
- ◆ Vigorous, dense foliage with many canes
- ◆ Upright habit; 6'x4'; fast growing
- ◆ Full sun; acidic soil; medium to high fertility
- ◆ USDA zones 4 to 8, has survived winters in Michigan with minimal injury
- ◆ Ideal for commercial processing, frozen IQF fruit, culinary, and fresh market/u-pick
