

Yucca aloifolia

Magenta Magic

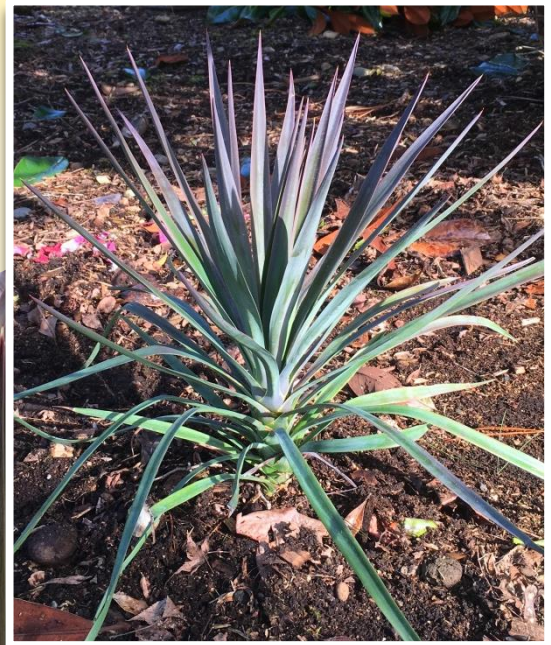

**SPIKY UPRIGHT
LEAVES in LOVELY
SHADES of EMERALD
and MAUVE MAKE A
DRAMATIC STATEMENT
in the GARDEN!**

A native of the southeastern United States, 'Magenta Magic' forms evergreen stalks of deep green, that deepen to purplish mauve with the onset of cooler autumn temperatures. It grows well in arid, well-drained soils, and loves the heat of sunny, problem areas in the landscape. 'Magenta Magic' makes a bold statement planted en masse, and provides multiple seasons of interest.

- Upright, spiky evergreen
- Mature size approx. 4 to 5 feet tall
- Best in full sun, in well-drained soil
- Hardy and tolerant of most soil types
- USDA Zones 7 to 9
