

VACCINIUM *ovatum*

Native to the Pacific coastal region, this popular shrub features a neat, upright habit, dark evergreen leaves that emerge bronzy red, and attractive reddish bark, providing multiple seasons of interest. Racemes of urn shaped flowers in spring, and edible, blue-black berries in late summer add to its appeal. 4'H x 4'W; USDA Zones 7 to 9.

CHECK OUT OUR
THREE UNIQUE NEW
TWISTS ON THIS
TRIED AND TRUE
FAVORITE!

Cascade SUNBURST™

Vaccinium ovatum 'Vacbri2'
Cascade Sunburst™
USP#34,948; CPBRA#

Distinctive variegated foliage gives this versatile Pacific Coast native a colorful new twist. Finely serrated leaves emerge vivid coral, then gradually turn bright green with creamy variegations.

- Colorful, variegated foliage
- Vivid coral new growth
- Mature size of 4'H x 4'W
- USDA Zones 7 to 9

Cascade JEWEL™

Vaccinium ovatum '124OSU'
Cascade Jewel
USPP, CPBRA#

Thicker, more rigid stems give this Huckleberry a more structured, upright, less floppy habit than other cultivars. Additionally, 'Cascade Jewel' has a quicker finish and requires less pruning.

- Thicker, more rigid stems
- Deep red new growth
- Finishes quicker
- Requires less pruning
- Drought and salt resistant
- USDA Zones 7 to 9

**Available January 2025
exclusively at Briggs!**

Scarlet™ Ovation

Vaccinium ovatum 'Vacsid1'
Scarlet Ovation™
USP#25,067, CPBRA#4855

Our award winning evergreen Huckleberry was selected for its colorful foliage and compact habit. New growth is beautiful bronzy red, that matures to green in early to midsummer. With a mature size of just 3'H x 3'W, it is more compact than other cultivars.

- Bright, bronzy red new growth
- Upright, compact habit
- Mature size of 3'H x 3'W
- USDA Zones 7 to 9
